

**QTC** swap deadline extended  
to July 31<sup>st</sup>, 2022.

Dear Quanto-siast,

Due to still huge amount of QTC holders not having registered up to Level 4 on TIMEX.IO and transferred their QTC from WAVES.EXCHANGE to TIMEX.IO we are extending one more time till END JULY.

Due to overwhelming amount of support requests, we would kindly remind to simply follow instructions as indicated in our newsletters and on TimeX.io blogs. Everyone should be able to handle this simple process, but we will try our best to assist.

The QTC smart contract Waves to BSC swap will only happen after that date, providing old QTC Token holders access as per the T&C. Whoever failed to transfer after that date or did not comply with the T&C or KYC/AML procedures may lose their QTC tokens without the right to claim new QTC tokens.

Kind Regards,  
Your QTC team!
