

Dear Quanto-siasts!

The Quantopay Team are extremely proud of the groundbreaking milestones we have achieved with your support. Over the past few months, we have successfully showcased the QuantoPay Application to specially selected community members. Having witnessed an overall smooth user experience with Europe wide and globally successful transaction, the first touch and feel of the QuantoPay experience, and an initial introduction into the next steps, we are happy to officially announce that the *Family & Friends round has been extremely successful.*

During the Family & Friends round we could show cast to our partners and regulators that we indeed managed to develop and run a *fully compliant and secure digital bank payment solution, which is fully licensed throughout Europe* and thanks to our cooperation with **VISA** usable throughout the world.

Our team, however, allocated as well various aspects to be improved for a better user experience and during the next couple of months we will work extremely hard to facilitating the intended full user experience, and to finally bring the QuantoPay blockchain and DeFi integration and global expansion vision to life.

Having *recently signed* a new strategic partnership with **Mastercard**; brought onboard the former **CEO of Standard Charter Bank Switzerland**; and formed relationships with other industry leading partners, our Middle East and Asian expansion has officially begun to become a reality with Dubai serving as our new hub for the global expansion.

In order to facilitate our next phase of product delivery, the QuantoPay Team have expanded significantly and continued to grow our international capabilities. We work hard that by Q4 2023 / Q1 2024 we will not only be operational in the EEA, but also in the *United Kingdom, The UAE, Kingdom of Saudi Arabia, Egypt, Malaysia, Pakistan and the Philippines.*

We want to thank you all for the continued support throughout our journey thus far, and we are very excited to enter the next phase together!

Sincerely,
The QuantoPay Team
